

Green Horizons

Supporting farmers towards sustainability and resilience

Join a **community** dedicated to sustainable agriculture and knowledge exchange.

Modern farming faces complex challenges, from climate change to market volatility.

Through Green Horizons, Climate KIC is supporting ambitious farmers on their journey towards resilience, productivity, and sustainability.

What is Green Horizons?

A knowledge-sharing network and hub designed for farmers who want to:

- ✓ Stay ahead with the latest sustainable farming techniques
- ✓ Collaborate with experts and fellow farmers
- ✓ Gain access to training, tools, and events
- ✓ Drive change through carbon farming and climate-smart agriculture

What will you gain?

Knowledge hub

Explore a curated library of expert content including articles, webinars, and guides. Discover best practices, cutting-edge methods, and market insights – all in one place.

Toolbox for carbon farming

Access solutions, schemes, and regularly updated resources to implement and scale up carbon farming practices effectively.

Events and training opportunities

Live and recorded webinars

Covering everything from crop management to policy forecasting

On-site and virtual events

Participate in farm tours, training sessions, and community meet-ups

Sustainability transition portfolio

Boost your knowledge with specialised courses and materials on transforming your practices sustainably

“

Being in this project means we can collaborate with researchers across Europe, learn from other farms, and share what we're doing. It gives us visibility and support – and helps us feel part of something bigger.

Connect, learn, grow

Forums and Q&A boards

Ask questions, share solutions, and learn from the experiences of others. Real-time support from a vibrant farming community.

Sparring network

Connect with mentors, advisors, or peers for personalised guidance.

Farm-specific subgroups

Join focused communities based on your needs, by crop type, region, or farming approach (e.g., organic or irrigated systems).

Be part of a global community for change

Green Horizons is part of the wider **Climate KIC Community**, which brings together over 150 leading organisations, from universities and research institutions to cities, NGOs, and startups, all united by a shared mission: to tackle climate change through **bold, collaborative innovation**.

About Climate KIC

Climate KIC is Europe's leading climate innovation agency and community, creating climate-resilient communities and fighting climate breakdown by mobilising systems change in countries, regions, cities, and businesses. Together with partners across the globe, Climate KIC orchestrates solutions and facilitates learning to bridge the gap between climate commitments and current reality, driving faster and more ambitious action.
